Game	Tekton Dash
Developer and Publisher	DanchieGo Studio
Genre	Party Game, Puzzle-Building Game, Racing Game
Language	English
Game Description	**Tekton Dash** is a chaotic, strategic party game for 3-6 players set in the whimsical world of Tektonia, where crazy builds meet unpredictable racing. Once a perfect home for the tiny builders known as Tektons and their legendary racing partners, the Dashers, Tektonia was thrown into chaos after a disaster left it in ruins. Now, players take on the role of Dashers, teaming up with Tektons to rebuild their shattered homeland while racing through two laps of escalating mayhem, hilarious twists, and sneaky sabotage. To win, players must master strategic pattern-building, outwit their opponents, and use cunning sabotage to slow rivals—all while racing to restore Tektonia to its former glory. With its ever-changing gameplay, chaotic challenges, and unpredictable twists, **Tekton Dash** unleashes everyone's inner trickster and guarantees a fun-filled, mayhem-packed experience at every table!

About Danchie Go Studio	Founded in 2023, DanchieGo Studio is an indie art studio based in Spain powered by creative folks across the globe. Our main focus is to develop our IPs into all sorts of cool stuff, including games. Within our diverse team, we appreciate any differences of culture, and we are committed to provide a learning environment where we can grow together through experimentation and shared experiences.
